Personal

I was born on the 27th of May 1976.

I am married to Helle and together we have two sons, Andreas (July 2004) and Emil (July 2006). We live in a house in Skalborg, Aalborg.

I am a happy guy, with a sense of humour that is used frequently. I am a quick learner, and I love to learn new things. I get into specifics within the subjects I work with - it is important for me to be very good at what ever I am doing. Usually, I try to be the best. I work great both individually and in teams. I am not afraid to speak my mind, if I think something can be done better.

In my spare time, I play with my two sons, sit at the computer at home, trying to learn new things, and also, I try to do some sports. I used to play pool in the 2nd division, but haven't played for a couple of years now. I have also played badminton a lot, but have skipped that as well. I'd like to run a marathon at some point, but right now I don't have the time to exercise.

I have a pretty good network - especially within the BizTalk world, but also plenty of friends and old colleagues. Microsoft knows me pretty well for my BizTalk skills.
